Summary

As an IEEE Deligate at IEEE, I am involved in organizing and participating in various events and activities that promote the advancement and application of technology for the benefit of humanity. I collaborate with other IEEE members, professionals, and students to exchange ideas, share knowledge, and network with peers.

I am also pursuing a Bachelor of Technology degree in Computer Science at Amrita Vishwa Vidyapeetham, where I am learning and developing skills in machine learning, GitHub, Git, and other emerging technologies. I have completed multiple courses and certifications in data analytics, supervised machine learning, and chatbot development, demonstrating my enthusiasm and commitment to algorithmic problem-solving and excellence in full-stack development.

My goal is to cultivate leadership prowess and adapt to evolving technologies, while contributing to the dynamic realm of technology with innovative solutions and collaborative endeavors. I am eager to connect with other professionals and organizations that share my passion for innovation and social impact. Let's engage in a conversation about how we can work together to create value and make a difference!

Experience

IEEE Deligate
IEEE
Mar 2024 - Present (2 months)

Education

Amrita Vishwa Vidyapeetham
Bachelor of Technology - BTech, Computer Science
Sep 2021 - Apr 2025

Amrita Vishwa Vidyapeetham
2021 - 2025

Licenses & Certifications

Introduction to Data Analytics - IBM
https://coursera.org/verif y/NJ83QDVYDP62

Supervised Machine Learning: Regression and Classification - DeepLearning.AI, Coursera, Stanford CPD, UVM
https://www.coursera.org/account/accomplishments/verify/LPXXK2LKBRUA

course Master ChatGPT

Competitive Programming - Amrita Vishwa Vidyapeetham

Competitive Coding - Amrita Vishwa Vidyapeetham

Smart India Hackathon - Smart India Hackathon
Issued Sep 2023 - Expires Dec 2023

IEEE Wireless Communications Engineering Technologies (WCET) - IEEE
